## U. S. REDS CURED AFTER SOJOURN IN RUSSIAN "UTOPIA"

AMERICANS, IN SEARCH OF PARADISE, FIND STARVATION.

ROBBED BY RUSS Wives Insulted by Free Love Demands; Haywood Longs for Homeland.

New York.—After going to Russia in search of a workingman's paradise and returning thin, disappointed and penniless, Thomas (B. Doyle) of Baton Rouge, La., on Friday obtained the arrest of two Soviet agents who "colonized" him, on the charge of grand larceny.

Doyle, his wife and two children, and other "colonists," were received in Moscow by Big Bill Haywood, a brass band and 10,000 red soldiers, glory, followed by months of hunger, danger, disappointment and disillusionment, according to Doyle.

Utopia Vanishes.—They never found the industrial Utopia promised by the New York Soviet agents. They were sent here and there, their money was taken from them and starvation threatened them, when they were finally able to get out of Moscow, according to Doyle.

The worst of all experiences, according to Doyle, was the constant insult offered to his wife by Soviet officials and others who constantly sought to convert the colonists to the principle of free love.

"Big Bill" in Discredit.—Big Bill Haywood, like many other American radicals who went to Russia, is in discredit there. He leads a life, not according to the story told to the district attorney, who says he is a "colonist" who hears of a ship to sailing for America.

Other returned "colonists" added to the complaints of Doyle, but no other names were made public. It was said that Doyle had been invited to Washington to tell his story to the state department. Scores of the Utopia seekers were reported still in Russia in great need.

Many left for Russia after receiving eloquent descriptions of the refined and beautiful life in the Utopia where they could do so easily for themselves either in the soft coal or platinum industries.

Charges Camouflaged.—Others were promised excellent living conditions in once rich agricultural sections of Russia, near which, according to official American investigators, camouflaged has been widely practiced in the last two years as the only escape from starvation.

## BRAZIL REBELS RAISE SIEGE

[BY ASSOCIATED PRESS.]

Rio de Janeiro.—The Brazilian revolutionaries have been obliged to raise the siege of the town of Uruguanym, losing 40 killed and many wounded in the operation, says a dispatch to La Nación from Foz de Iguaçu.

The rebels, according to their leaders, lost three killed and 10 wounded.

The correspondent asserts the rebels are about 800, have retired to Quirary, where they will seek reinforcements before returning for a new attack.

## VESSELS SUNK IN COLLISION

[BY ASSOCIATED PRESS.]

Baltimore.—The Danish steamer Nordvalen was sunk in a collision with the British steamer Barracra in Calicut channel about 11 miles from Baltimore Friday night. The Nordvalen lies in about 20 feet of water with her superstructure exposed. No lives were lost, it was said. Both were freighters.

## SOME REASONS WHY THE ANNIVERSARY OF THE DECLARATION OF WAR ON APRIL 6, 1917 WILL NOT SOON BE FORGOTTEN

## FRENCH PROPOSAL FOR WORLD FLEET FAILS TO IMPRESS

APPROVAL OF AMERICA FOR ARMED LEAGUE IS IMPROBABLE.

Idea Declined by Wilson at Peace Conference at Versailles.

[BY DAVID LAWRENCE.]

Copyright, 1923, by Janesville Daily Gazette.

Washington.—The proposal of the president of the naval commission of the French senate that all the big navies of the world be scrapped and in its place be created an international police force to which all countries shall contribute so as to make an Armed League of Nations, will hardly get the approval of the United States government.

The same suggestion in principle was made at the Paris peace conference by the French delegation and rejected by President Wilson.

Said that time President Harding has in his addresses to congress unequivocally disapproved of any alliance of nations based on armed force and has insisted that the peace of the world can better be established through the moral force of the world.

The report of the supposed drowning reached the police at 8:45 a. m. and assisted by firemen with the use of four boats, the police dragged the river for more than an hour before giving up. Mrs. Dohs told police that from her home she had seen a man apparently struggling for his life in the water and that he had gone down waving his arms frantically.

The spot where she reported seeing the incident is two-thirds of the width of the river away from her home and the river is unusually wide at this point, known as the marsh. The point she specified is opposite the end of Park avenue at Western avenue and at the edge of the marsh where the water is 10 feet deep or more, police say. As no boat had been seen in the vicinity and as a man could not have waded out that far, police believe Mrs. Dohs may have been mistaken.

Scores of ducks are frequenting the marsh and it is believed probable she mistook the antics of one in standing on the water flapping its wings for a drowning man.

## Pupils Will Strike Unless Board Quits Smoking in School

Hazelton, Pa.—Pupils of the eighth grade at the West Hazelton public school have sent a communication, signed by the health committee, demanding that the school board, which meets in the eighth grade room at the school building, abstain from smoking at meetings.

The board has refused to do so and the pupils are threatening a strike of students.

## CHEVROLET HIT BY ROAD TIEUP

Local Manager Sees Need of Open Roads in Winter.

Necessity of keeping roads open during the winter was emphasized this week by Thomas E. Houghton, general manager at the Chevrolet plant in Janesville. Blocked roads have prevented drive-in sales from the city and for several weeks and in addition have curtailed business activities to a marked degree in every city and village in the county.

"In and near Flint every effort is made to keep the roads open, and they never stop fighting," states Mr. Houghton. "From the time a bad storm comes on the city and county forces are out fighting to keep the main roads open."

"The powerful tractors keep going during the storm until it is possible to live three miles out of Flint and all during a severe winter there was but one day when the road into Flint was blocked."

"The roads have to be open for the Chevrolet plant turns out more than a thousand cars a day and they must be shipped. Blocked roads would mean cars piling up with no storage space."

All available storage space at the G. M. C. plants here have been used to store cars already purchased by dealers, who now await favorable travel conditions to drive them away.

Production is steadily increasing at the Fisher Body company and during the last week the Janesville plant was producing between 40 and 60 closed jobs a day for the Chevrolet.

The plant is now producing 100 closed jobs a day for the Chevrolet.

## MICHIGAN CENTERS FORCES FOR DRIVE ON PURNELL CULT

LEGISLATURE JOINS IN ATTACK WITH BILL FOR ACTION.

KING BEN SOUGHT Receivership for Property Will be Asked Pending Court Proceedings.

[BY ASSOCIATED PRESS.]

Lansing, Mich.—The legislative, judicial and executive branches of the state government were linked in action against the House of David Saturday.

The legislature joined the state's cause with a bill, ready for enactment, that will permit the state to ask for receivership of the colony's property, pending outcome of the quo warranto proceedings instituted in circuit court here by Attorney General Andrew Dougherty.

Present plans are to seek the receivership and, if the charges of fraud, deceit and immorality, filed by the state, are upheld in the quo warranto proceedings, the colony would be forced to disband and its property would be disposed of.

Society continued to surround activities of the state officials preparing for the court proceedings.

Whether Benjamin Purnell, head of the colony, would be located and served with a summons still was a matter of speculation.

Purnell's absence from the colony was confirmed by the fact that she did not know his whereabouts.

## BRITISH OPINION CLAIMED BY PARIS

Public Sentiment Swinging on Subject of Ruhr, Says Envoy.

[BY ASSOCIATED PRESS.]

Paris.—Louis Loucheur, returning from London Friday night, disclaimed the views on the reparations question attributed to him in the press by the foreign editor of Le Matin. He had brought back a conviction that British opinion had changed and that public sentiment in England was clearly favorable to France.

This attitude, he said, was evident in the political world, except that there was mingled with it an uneasiness as to the possible consequences of the Ruhr Ruhr policy.

"I did not find an English politician, no matter what his party or what views he entertained originally on the opportunity of the Ruhr Ruhr policy," Mr. Loucheur is quoted as saying, "who did not approve unreservedly when I declared that we will carry through this undertaking to the bitter end."

The British government has an entente agreement may be reached as a result of Mr. Loucheur's visit, pointing out that he is not a member of the government.

## FIRST TRAIN LEAVES FROM MINERAL PT.

[BY ASSOCIATED PRESS.]

New York.—Prohibition agents Saturday made one of the largest raids since the Volstead act became law, seizing 10,000 cases of champagne, wine, and fine liquors, valued at \$2,000,000 and arrested seven men.

The raid was made at the Mineral Point, N. Y., where the liquor was being stored in a warehouse.

## Dry Referendum Proposed in Bill

CITIES TO FIGHT ROAD TAX BILL

Mass Meeting Here Monday Night to Get Sentiment on Issues.

[BY ASSOCIATED PRESS.]

Madison.—A referendum on the question of repealing the eighteenth amendment to the United States constitution is asked in a bill prepared for introduction into the legislature Saturday by Senator W. A. Titus, Fond du Lac.

This measure has the endorsement of the Wisconsin Anti-Saloon League. B. C. Hicks, its legislative counsel, says:

"The bill states that 'at the general election to be held in November, 1924, the following question shall be submitted to the electors:'

"Shall the eighteenth amendment to the constitution of the United States be repealed?"

If a majority of the votes cast at this election 'are in favor of the repeal of the 18th amendment,' the bill declares, 'then the secretary of state shall communicate to the congress of the United States by transmitting to each of the presiding officers of the houses thereof, the following memorial:

"Whereas, the people of Wisconsin have by popular vote recorded their disapproval of the eighteenth amendment of the constitution and their desire for repeal of such amendment."

Now therefore, the people of Wisconsin do respectfully petition and memorialize the congress of the United States to initiate an amendment to the constitution of the United States repealing the eighteenth amendment thereto."

## SCHWARTZ VICTIM OF \$3,000 THEFT

Diamond Rings, Fur Coat Lost by Former Janesville Family.

[BY ASSOCIATED PRESS.]

Two diamond rings, a diamond bracelet, an old-fashioned clock and a fur coat, aggregating some \$3,000 in value, were stolen from Mr. and Mrs. Harold S. Schwartz, formerly of Janesville, in Cleveland this week according to word received by local friends.

Cleveland detectives are searching for a young woman hired by Mrs. Schwartz as a maid and who disappeared after working for them about two hours. In her first day's duty, the maid proved capable and was most efficient. When Dorothy, daughter of Mr. and Mrs. Schwartz, went to bed last night, her "go night," she was missing and so were \$3,000 worth of valuables. The window in her room was open, she having made her getaway by a fire escape.

Burglar insurance was carried on the jewelry and coat.

## JUSTICE CANNOT BE OBTAINED, IS BRUNDAGE OPINION

JURY PROMPTLY FREES SECOND GROUP OF SUSPECTS.

6 ARE ACQUITTED Remaining Cases Against Alleged Mine Rioters Will Not be Prosecuted.

[BY ASSOCIATED PRESS.]

Marion, Ill.—All of the untied criminal indictments growing out of the Herrin riot were subjected to a nolle prosequi today following the acquittal by a jury last night of six defendants charged with murder in connection with the outbreak.

Justice cannot be obtained in Williamson county in the opinion of Attorney General Brundage, who returned Saturday from Marion, where Friday night a second verdict of acquittal was given by a jury in the Herrin mine murder trials.

It was as a result of this verdict that, in all the remaining cases against the alleged rioters, nolle prosequi was entered Saturday by the state's attorney of Williamson county.

"Inasmuch as justice in these cases cannot be obtained in that county, there seems nothing further that can be done," Mr. Brundage said.

The verdicts freed six defendants. Eugene Willis, state executive board member of the Illinois miners; Phillip Fontanella, Oscar Howard, James Brown, negro; Bert Grace, and Gus Clark.

Grace and Otis Clark were acquitted in the first Herrin riot trial. A six were charged with the murder or conspiracy to murder Antonio Mulkavich of Erie, Pa., a veteran of the World war.

Only one ballot for each of the defendants was taken, J. C. Coughlin, foreman of the jury, said.

## FEDERAL PROSECUTIONS ARE NOT EXPECTED

[BY ASSOCIATED PRESS.]

Washington.—High officials of the department of justice said Saturday they would not initiate federal prosecutions against those charged with responsibility for the Herrin mine massacre and who escaped conviction yesterday, in a state court, unless new facts were developed.

## TWO HELD IN GIRLS' DEATH; BLOOD FOUND

[BY ASSOCIATED PRESS.]

New York.—Two Italian, husband and wife, one of the two women found hanged to death Friday on a lonely Staten Island road, and Brooklyn Di Lorenzo, assistant in his Jersey City Police shop, Saturday were arrested on charges of manslaughter. The men were held in \$25,000 bail each.

Detectives discovered in Jersey City, a machine bearing smears believed to be bloodstains.

They withheld information as to the ownership of the car, pending an analysis of the stains, which covered parts of the upholstery of the rear seat.

## PICKET BILL TO GOVERNOR

[BY ASSOCIATED PRESS.]

Madison.—Whether peaceful picketing of places where strikes or lockouts are in progress shall be made lawful in Wisconsin is now for Governor Blaine to decide. The assembly concurred in the quick senate bill, pending the law against prohibition of workers so as to "not prohibit any person from recommending, advising, or persuading others by peaceful means to refrain from working at places where strikes or lockouts are in progress."

## RIVER HIGH BUT NOT NEAR FLOOD STAGE

[BY ASSOCIATED PRESS.]

Rock River continues to rise, but as yet no flood danger is visible. The river was 2 1/2 inches above government mark at the Fourth avenue plant of the Janesville Electric company at noon Saturday, five inches higher than Friday.

The river raised six inches at Indian Ford over night. When that water gets down this far, a further rise here is due. The river, however, is dropping at Fulton, due to the opening of the flood gates.

## BAND WILL GIVE CONCERT LATER

[BY ASSOCIATED PRESS.]

Bower, City band has been forced to postpone the concert which was to have been held Sunday afternoon at the high school auditorium, due to weather conditions and illness of musicians. The MacDowell club will give the first community concert Sunday, April 22, when the MacDowell Glee club makes its initial appearance in a cantata, "The Lady of Shalott."

SCREEN AND STAGE

PROGRAMS AT JANSVILLE THEATERS

**BEVERLY**—Tuesday—*"What a Wonderful World"*, with John Bowers, Marguerite de la Motte and Milton Sills; and Larry Semon comedy.  
Wednesday through Saturday—*"Heroes of the Street"*, Wesley Barry, "Plunder" with Pearl White, and a comedy.  
Monday through Thursday—*"Minnie"*, Leatrice Joy, "Three Must Get There", and special orchestra.  
Friday—Feature picture and vaudeville.  
Saturday and Sunday—Vaudeville and comedies.  
**MYERS**—Tuesday—*"The Flame of Life"*, Priscilla Dean, other short features.  
Wednesday through Saturday—*"Rent Free"*, with Wallace Reid and Lila Lee; and vaudeville.  
**AT THE BEVERLY**—A drama of contrasts has been produced by Thomas H. Ince in *"What a Wonderful World"*, his latest picture featuring Marguerite de la Motte, John Bowers and Milton Sills, to be at the Beverly the first of the week. There is the elemental contrast of a cultured eastern woman, fresh from college, and her Arizona rancher husband. There is the contrast of life along Broadway, New York, and in the arid desert regions of Arizona. There is the contrast of varying constructive ideals which both husband and wife struggle to make realities. The wife seeks to become a dramatist. The practical husband

plans to reclaim desert wastes. Almost at the altar diverging ambitions threaten to tear them apart. Moreover, there is contrast between the primitive uncontrolled emotions of the rancher husband and the repressed by equally powerful love which a successful New York dramatist has for the rancher's cultured wife. There are said to be many thrilling moments in this picture—when a dam breaks, when the cattle stampede, and when a beam at the top of a skyscraper gives away. Wesley Barry, the lad of the many freckles and the smile that never wears off, is announced for an appearance at the Beverly theatre beginning Wednesday, where he will be seen in his latest picture, *"Heroes of the Street"*. In this Warner Brothers production Wesley is seen as a plucky boy whose bravery helps him do things at which his grown-up superiors fail. He is cast in a role that gives him unusual opportunities to reveal a side of him that was not called out in his other pictures, *"Keweenaw"*, *"School Days"* and *"Rags to Riches"*. In them he was a mischief-loving, frolicking urchin always ready for a prank; here he is all this plus a new quality that will make him more endearing to his many followers, among the men, women and children of this city. Humor and pathos are said to be pervasively blended in this picture.

**AT THE APOLLO**—A number of features will combine next week at the Apollo to make the bill there an interesting one. For one thing, the redecorating which patrons have been noticing for some weeks past, has been completed and will be on formal inspection the four days starting Monday. In the balcony, the seats have been rearranged semi-circularly instead of in straight rows, thus making each seat more comfortable and in full view of the entire stage. The boxes have been made more accessible, and paint and varnish have added greatly to the appearance here. Down-stairs the seats have been repaired, a wooden partition erected in the rear of the last row, and other changes made. The color scheme of the presentment has been changed from gold to a mottled gray and brown, attractive and harmonizing well with the other colors of the theatre. The piano has been shifted to the center of the pit and will allow larger orchestra and better conducting. Altogether the changes, which they have not necessitated closing the theatre, have added greatly to its appearance and comfort. Another feature, and perhaps the main one, will be the picture, *"Minnie"*, Marshall Neilan's latest production, and said to be one of his best. It adds still more to the variety that he has made, and this time is a straight comedy, funny from beginning to end, with thrills here and there to make it well balanced. It is a very human story about the household drudge who is so homely that no one hesitates to tell her so. Her father owns the hotel, but is so interested in a radio apparatus that Minnie does all the work. But Minnie has ideas and she uses them to the discomfort of everyone in many comical situations. Matt Moore supports her. Another picture shown in conjunction with *"Minnie"* is *"Three Must Get There"*, and is said to be a hilarious parody on *"The Three Musketeers"*. Faroes are proving popular lately and this one will doubtless be well liked, having had many commendatory remarks. In addition to all this Manager James Zanlas has booked a ten-piece orchestra for the four days to make the occasion one to be well remembered.

**AT THE MYERS**—Life as it was in 1870 in the mining country in North England provides a new atmosphere for Priscilla Dean's stellar appearance in *"The Flame of Life"* at the Myers. The picture has not played here before, for *"Rent Free"* was one of the very last pictures that plain people is the basis of this Hobart Henley Universal-Jewel production. It was adapted from one of Frances Hodgson Burnett's famous novels. Robert Ellis appears as a man of higher caste than the heroine. His is an uplifting hand, helping the girl of the mines to gain her heritage of happiness and prosperity. Wallace Berry's peculiar ability to be "a hundred per cent villainous" is demonstrated in the role of a brutal father, untouched by any sympathetic kindness. Leatrice Joy and Kathryn McGuire handle secondary feminine roles. Emmett King, Fred Kohler, Frankie Lee, Evelyn McCoy, Richard Daniels, Grace Degario and Nancy Caswell complete the cast. *"The Flame of Life"* offers Miss Dean such a role as she has never had, unique in all the details of its portrayal. The strength of it is shown by the fact that she has no side in the way of beautiful sets, gorgeous gowns or hidden wealth. The picture for the week-end will offer the last opportunity to see Wallace Reid in anything that has not played here before, for *"Rent Free"* was one of the very last pictures that

popular star produced. Those that play here in the future will be vint as known as "second runs." The picture is a light comedy, the kind that Reid always did best. It tells of the young artist who lived in a little studio in poverty rather than spend his time in idleness. He falls in love with a girl across the top of the sky-scraper and in the end finds she is the possessor of the beautiful home where she had worked as a servant. (Continued on page 5)

# SUPERVISORS TO MEET HERE, APR. 17

County Clerk Sends Out Call for April Board Session.

Special April session of the Rock county board of supervisors will convene at the court house at 2 p. m. Tuesday, April 17, under the notice sent to all members by County Clerk Howard W. Lee this week. The meeting is for the election of the chairman, vice chairman and other officers. This meeting will include arranging for the sale of additional highway construction bonds.

T. J. Kelly, Beloit, and E. A. Silvertown, Portville, will sit as new members of the board, according to notices received by the county clerk. Mr. Kelly was elected as the successor to C. H. Christensen who moved out of the ward which he represented and Mr. Silvertown succeeds Frank Lowry who was appointed in place of A. C. Gardner.

W. W. Dalton, present chairman, will call the meeting. Appointment of standing committees for the year is expected to follow the selection of the chairman. Last year there were 17 standing committees.

## Mrs. Arnot, Wife of "Y" Secretary, Dies in Milwaukee

Mrs. J. K. Arnot, wife of the secretary of the county Y. M. C. A., residence, 225 North Chatham street, died at 10:30 a. m. Saturday, at St. Mary's hospital, Milwaukee, where she had gone a week ago for an operation. She had been in poor health for four years.

Mrs. Arnot was Leona Randall and was born in Gays Mills. She was married to Mr. Arnot in Roundup, Mont., in 1916 and they came here some years ago. Mr. Arnot and a four-year-old son, Don, survive.

While arrangements for the funeral have not been completed, it will take place at Gays Mills. Mr. Arnot will not return to this city for a week or more.

## New First Place in K. C. Tourney with 627 Count

## OBITUARY

Mrs. Rebekah Lemmon

Orfordville, Wis., Rebekah Lemmon died Friday morning at the home of her daughter, Mrs. Jacob Blumer, after a lingering illness. Mrs. Lemmon was in her 81st year and was one of the early settlers in the vicinity of Monticello. Her husband died about a year and a half ago. Since the death of her husband she spent a portion of the time with her daughter in Orfordville. She is survived by two sons and two daughters—William, Monroe, and Jesse, Monticello; Mrs. Myrtle Feg, Monroe, and Mrs. Bloomer. The funeral was held at Monticello Monday, services being conducted by the Rev. Mr. Mullinger of the Lutheran church. The funeral party went to Monticello on the evening train Saturday.

Tora Steffensen

Clinton, Wis.—Tora Steffensen died Monday evening at the hospital at Council Bluffs, Iowa, where she had an operation for appendicitis. Miss Steffensen is the daughter of Mr. and Mrs. P. K. Steffensen of our village. She had been in Council Bluffs for the last five years. The funeral will be held from the home of the parents on Church street, Friday, 1 p. m. Two sisters and their husbands, Mr. and Mrs. Marion Rasmussen and Mr. and Mrs. Bert Christensen, all of Council Bluffs, Iowa, are here to attend the funeral.

Beverly Benton

Beverly Benton, two year old daughter of Mr. and Mrs. Harold S. Benton, is dead at her home in Snopiere according to word received in this city by Mrs. Joseph Eau Claire. Mr. Benton, an ex-service man, has been confined to Great Lakes hospital since Christmas.

Funeral of Mrs. Mary Nelson

The funeral of Mrs. Mary Nelson was held at 9 a. m. Saturday, at St. Patrick's church with the Rev. Dean James F. Ryan officiating at the church and the Rev. Oswald Ulrich at the grave in Mt. Olivet cemetery. Pall bearers were D. J. Barry, T. P. Burns, W. J. Kennedy, W. A. Murray, Mayor T. J. Welsh and Walter Birt.

W. S. Salisbury, Whitewater

Whitewater.—Winfield Scott Salisbury, 77, last of the pioneer family of Salisbury living in Whitewater, freight agent for many years for the Chicago, Milwaukee and St. Paul railroad, and retiring city assessor, died at 2 p. m. Friday after a lingering illness.

Winfield Salisbury was the son of Mr. and Mrs. Arnold Salisbury who came here from Council Bluffs, Iowa, in 1837. He was born at Spring Prairie, Walworth county, Feb. 28, 1846. He married Mary Marie Nov. 14, 1878, and they had four children, two of whom are dead. Surviving children are Mrs. Ruth Traut, Whitewater, and Margaret Salisbury, who lived with her father. Three grandsons, a brother, Willard, Vancouver, B. C., and two sisters, Mrs. Manning V. Wolf, Whitewater, and Mrs. C. J. Partridge, Milwaukee, survive.

Mr. Salisbury was one of the oldest Masons of the Whitewater chapter and the Masons will have charge of the services at 2:30 p. m. Monday.

Mrs. John Marshall, Whitewater

Whitewater.—Mrs. Mary June Marshall, 63, wife of John T. Marshall, died at 8:15 a. m. Saturday at her home here, where they have lived for several years after moving from their farm near Whitewater.

Mary June Marshall was the only child of Mr. and Mrs. George Blisset, pioneers of Walworth county, and was born July 14, 1859. She married John T. Marshall and they have two sons, William and George, living on farms near Whitewater.

Funeral arrangements have not been made.

George Clark, Delavan

Delavan.—George Clark, 73, civil war veteran and a resident of Delavan 30 years, died Saturday morning at the home of his daughter, Mrs. J. R. Lackey. Mr. Clark was born in New York state, Oct. 7, 1844. He was a member of the A. O. U. and the Knights of Pythias. Two daughters, Mrs. Lackey and Mrs. A. W. Madison, both of Delavan, survive, together with a sister, Miss Jean Edwards, Bureau, and a brother, David, in northern Wisconsin. Funeral services will be held at the Lackey home at 2 p. m. Monday.

Such assistance as one's friends may give is seldom satisfactory. The best way is not to require it.

## CITIES TO FIGHT ROAD TAX BILL

Continued from Page 1

lost the tax and pay it back to the counties as "ante-aid" not in proportion to the amount which each county pays, nor the assessed valuation, or the number of motor vehicles, nor even total highway mileage but the rural mileage. None of the revenue is returned to the cities, although more than half will be raised in the urban centers.

"This is discrimination against southern cities," declared City Attorney "Kopie" Cunningham. "Under the proposed bill Rock county having state trunk lines would pay \$30,000 and receive back only \$50,000, the balance going to some northern county that has been less progressive in road building. There is no logic or fairness about this feature."

Substitute measure

In Milwaukee only the rural "Joker" works out so that Milwaukee county would pay \$487,000 and would get back only \$18,000 for the greater part of the highways are on the state trunk system. Any county that has passed bonds for permanent road improvement and paid for the roads penalized.

The League of Municipalities and County Boards association are reported to have agreed on a bill introduced by Senator Polakowski (305-S) which embodies the provisions endorsed by both organizations. This bill carries the following features:

1.—It finances the state highway program from the gasoline tax and the graduated license fee for autos.

2.—It contains a lower and far more equitable schedule of license fees.

3.—It carries a higher schedule for trucks.

4.—It returns 75 per cent of the truck fees to the city and 25 per cent to the counties.

5.—It gives the same state aid for streets connecting state trunk highways running through the city as the county gets outside.

6.—It gives the towns and villages the same benefits that it does the cities.

7.—It will return 75 per cent of the valuation tax on motor vehicles to the cities, towns and villages and 25 per cent to the county.

8.—It will increase city revenues by reaching the motor vehicles that now escape taxation and by the increase in income taxes resulting from the abolition of the personal property tax on cars.

To Protest Bills

Recently elected members of the city council are being urged to attend the conference Monday night since the administration of the motor tax laws will be during their term of office.

County Board officials are also urged to attend and join in the delegation to appear during the conference next Tuesday and at the hearing on Wednesday.

## NORMAL HIGH GIVES PLAY FRIDAY NIGHT

Whitewater.—The normal high school presented a play called, "Stop That!" Friday, April 6. The cast included Alma Shipper, Catharine Shock, Winifred Warner, Lucinda Kundert, Dorothy Traut, Wilfred Ross, Walter Traut, Lyle Pollock, Joseph Green, John Cruver, Fred Wilson, Vernon Moriarty, Lawrence Bowers, Lester Burns, Leslie Loomer, and Ben Trewey. The play, directed by Mrs. I. U. Wheeler, was given in the normal gymnasium.

## DAVID WATT HAS SECOND OPERATION

David W. Watt, Myers hotel, underwent a second operation on one of his eyes at Mercy hospital Saturday morning. He is resting easily but will be confined to the hospital for a week or 10 days.

## TRAVELERS WILL HONOR W. E. CLINTON

United Commercial Travelers will install officers at 8 p. m. Saturday, in East Side hall. Percy L. Munger, past senior counselor, will act as installing officer. A token is to be presented to W. E. Clinton, who has been sentinel of the lodge for the past 25 years. J. M. Hogue, as senior counselor, heads the lodge.

## CLEAR DEBRIS FROM COURT HOUSE PARK

The city has a force of workmen cleaning up the storm debris from the court house park. Many of the beautiful trees were damaged, the weight of the snow and wind breaking off main branches.

To Visit School.—The entire faculty and principal of the Harvard Ill. high school, will take a day off Monday, to visit this city and the new high school building.

Information to Teachers.—A 20-page mimeograph pamphlet on curriculum for grade schools has been prepared by Miss Bertha Rogers, grade supervisor, and a number of beautiful trees were damaged, the weight of the snow and wind breaking off main branches.

A young man always sneers at the love affairs of a widow.

Nothing pleases a woman more than to help a man spend his money.

## HIGH CHAIRS AND CRIBS ARE NEEDED

Have you a child's crib, a high chair, a kindergarten table for which you have no further use?

The equipment assembled thus far for the day nursery to be opened Monday at the Salvation Army headquarters, 101 North Main street, does not include a sufficient number of the above articles. Only one table is needed and it must be one that can be made lower by sawing a few inches off its legs.

Six babies under two years of age have already been registered by their mothers to be brought to the nursery. Crib and high chairs are needed for these. Persons wishing to donate furniture may phone the Salvation Army and, if necessary, arrangements will be made to call for it Monday morning.

## EDGERTON

Edgerton.—Five school girls have completed the two months' course in home hygiene and care of the sick, under the supervision of Miss Martha Smart, city nurse, and have been awarded certificates from the central division of the American Red Cross, Chicago. They are the Misses Nellie S. John, Floy Holby, Jeanette Langworthy, Venise Gaarder and Margaret E. Hovels.

The Standard Bearers' story telling contest will be held at the M. E. church Sunday at 2:30 p. m.

The Milton College Treble Clef concert, which was to have been held at Albion, April 11, has been postponed to a later date in April, due to bad roads.

Chief of Police Springer reports 67 arrests made in the city for the year ending March 31, 1923. Of these, 15 were for speeding and 10 for drunk driving, totaling the days when she played in "The Charm School" with this same star. Vaudeville will be seen in connection.

Attention is being evidenced in the next stage attraction at this theater.

Joseph Harrington, ex-service man, who was recently taken to Mendota for treatment, is to be transferred to the Wisconsin psychiatric hospital for soldiers.

Announcement has been received by friends here of the wedding of Miss Kathryn A. Krustzer to Dennis F. McCarthy, both of Beloit, Wednesday, April 4, by the Rev. Sylvester Dowling.

The big social event of the school year, the annual Junior prom, was held in Academy hall Friday night. About 150 couples attended.

## Shopiere Host to County Endeavor

A meeting of the Christian Endeavor society of Rock county and the Southern Wisconsin district opened Saturday afternoon at the Shopiere Congregational church and a banquet will be held there Saturday night at which the Rev. H. M. Jordan will be toastmaster, and A. A. Alexander, Milwaukee, president of the society, will be the main speaker.

About 40 were expected to attend. On Sunday the meeting opens at 10:30 a. m. with the Rev. H. M. Jordan, pastor of the church, in charge. A luncheon will be served in the church, and at 2:30 p. m. the Four Square program will be given with Mr. Alexander in charge. Four minutes' talks by Live Wire Endeavorers will follow and the afternoon program will close with a junior demonstration in charge of Miss Fochterman, Monroe, junior superintendent.

A luncheon will be served at 5:30 and the evening program includes a devotion service with Miss Nellie Saunders in charge, and the regular evening service at 7:30, at which the Rev. I. M. Marston, pastor of the Janesville Christian church, will preside.

## CITY NEWS BRIEFS

Stir Up Interest.—Interest in the T. M. C. A. summer camp at Phantom lake is being stirred up with meetings held periodically at the association. Another was given Friday night, a small supper served by the association. The Rev. I. M. Marston, pastor of the Janesville Christian church, will preside.

Twelve Take Exams.—Twelve persons were writing at the postoffice building Saturday, on civil service exams for clerks and carriers. Names of those who pass will be put on the substitute list and called on when needed.

Injures Foot.—Miss Marie Marty, employed at the offices of Drs. Suber and Lister, was injured Thursday night when struck by an automobile. She was crossing Main street towards the Hayes building when a car, driven by a woman, failed to stop and struck her. The car went on, and the name of the driver could not be determined. Miss Marty was taken to the hospital, but was found to have no broken bones.

Story Hours End.—Story hour periods at the library were closed for the season Saturday morning when four stories were told. Attendance was good. The stories told were "Tattooed Cat," "Tom Tilt To," "The Three Feathers," and "The Laidly Worm." The periods will be started again early in the fall.

Seek Runaway.—Police here have been asked to watch for a 16-year-old runaway boy from Fort Atkinson.

Pay Next Week.—Paving operations will be started on North street next week if weather is favorable. Frank D. Hayes of the Hayes-Fountain-Hayes firm announced.

Postpone Meeting.—Because of the death, Saturday, of Mrs. J. K. Arnot, wife of the secretary of the county Y. M. C. A., the regular meeting of the board of directors of this organization Monday will be indefinitely postponed.

FINANCIAL AND BUSINESS NEWS

Save Your Money by Spending It Is New Method

A new way to save—saving by spending—is making a strong appeal to the younger generation. There is all the thrill of stock investing, for it is used to pay for investment stocks of local electric light and power companies.

The report of the Customer Ownership Committee of the National Electric Light Association, recently published, reveals that "one of the surprising things which has attracted the attention of this movement is the extent to which the younger people of the community are investing in these securities. This is undoubtedly due to the fact that the report contains that young people have, during the past five years, earned more money than probably has been the case with such classes in any period of the world's history, and as a result of their own thrift and the advice of older people, have sought investment for a certain part of this money."

Financial and business publications have shown great interest in the growth of this new investment movement, believing that it is not to be looked upon as a war measure, but that it is destined to become more important year by year. Forbes Magazine is offering \$1,000 in prizes for the best letter to the editor of the "What are the Benefits of Customer Ownership of Public Utilities?" This is an attempt to get the customers on the side of the relation between producer and consumer. The first prize will be \$500, the second \$200, the third \$100, with forty prizes of \$5 each. Contests closes May 15th, 1923. Letters may be any length and competitors need not be subscribers.

At a recent dinner in New York, officials of a number of Electric Light and Power concerns, comparing figures and estimates, arrived at a total of \$175,000,000 for the year ended Dec. 31, 1922 were \$21,166, against \$751,935 in the previous. After providing for taxes, depreciation, depletion, etc., the net profit was \$639,784 before Federal taxes, against \$493,294 in 1921.

The Western Union Telegraph Company reports for the year ended Dec. 31, 1922, net profits after all charges and taxes of \$13,158,180, equal to \$12.18 a share on the 399,736,720 stock, compared with net of \$9,633,808, equal to \$9.05 a share on 399,736,720 stock in 1921 net of \$12,385,720 or \$12.81 a share in 1922, and \$10.85 a share in 1921.

Bonds lost further ground during the past week, the decline being especially noticeable in the first two days, when the average price of forty leading issues dropped a half-point. In the latter part of the period, a moderate hardening tendency was discernible in high-grade securities, but there was no valid reason for believing that this minor movement marked the termination of the general downward movement in bonds. However, even though the improvement was slight, it was encouraging. Despite all the evidence at the present time pointing to a continuance of a sagging bond market, there are some voices in the wilderness which declare that present prices are likely at least to be maintained.

On March 15 there were 15,631 locomotives in need of repairs, an increase of 274 over March 1, according to the American Railway Association. Of the total, 13,536 required heavy repairs, an increase of 507; needed light repairs, a decrease of 233. Between March 1 and March 15 the railroads repaired and turned 16,841 locomotives out of their shops, against 17,207 in the last half of February.

Stockholders of the Public Service Corporation of New Jersey have approved the plan to change the present authorized common stock from \$50,000,000, par \$100, to 2,000,000 shares, no par value and to exchange the old common for new on the basis of two shares of new for one of the old. The proposal to increase the authorized preferred to \$100,000,000, par \$100, and divide the same into 250,000 shares of 8 per cent cumulative preferred, 500,000 shares of 7 per cent cumulative and 250,000 shares of 6 per cent cumulative preferred was also approved.

The Atchafalaya, Topeka & Santa Fe Railway was one of the comparatively few systems that reported satisfactory earnings in February. Gross of \$16,295,515 was \$1,920,972 greater than for the corresponding period last year, though it was \$2,220,876 less than in January. Net operating income of \$2,924,146, was \$1,372,501 in excess of February, 1922, but \$1,404,692 under January of this year.

A good example of the active rebound in earning power this year of rubber and tire companies in the January net of \$1,200,000, as compared with the \$1,055,000 actual balance last year. All figures are after charges and bond interest.

The American Safety Razor Corporation's net sales for 1922 increased about \$550,000 over the previous year, although sales expense increased less than \$20,000. Current assets were increased by \$270,000 and current liabilities reduced about \$431,000, so that working capital increased \$710,700 over 1921.

Net income after charges of the Detroit Edison Company for 1922 was \$2,613,165, equivalent to \$10.48 a share on \$24,854,900 capital stock outstanding at the end of the year, comparing with \$2,850,171 in 1921, equivalent to \$10.18 a share on the \$28,012,700 capital stock outstanding at the end of that year.

Sales of two of the eight plants of the Standard Parts Company, Cleveland's largest automobile accessory manufacturers, and its three service stations for \$1,025,000 to a syndicate of bankers headed by Howe, Snow & Barlow of Grand Rapids, Mich., was approved by the federal court. The Standard Parts Company, which has

125,000 People Hold Securities

Approximately 125,000 people in Wisconsin own public utility securities in the form of bonds and preferred stock, according to records made public by Morris F. Fox, president of Morris F. Fox & Company, one of the largest investment security houses in the state.

"In addition to this number of direct owners of public utility securities, thousands of people are indirectly interested in financing the utilities through their deposits in banks and their investment in insurance companies, a great share of whose assets are invested in utility securities," said Mr. Fox.

Conditions Grow More Favorable

Financial operations in the Seventh Federal Reserve District during February and early March are evidence of the favorable credit conditions existing at present says its report out Thursday. In the agricultural sections the March settlement period was met with little strain on the banks, reflecting the better financial situation of both banks and farmers compared with the years immediately preceding. In industrial centers, the increased demand for bank accommodation resulted from the active operations of manufacturing plants. A delay in shipping their finished products—a delay caused not only by car shortage but by the present large volume of shipments. Contributing to this freight congestion is the heavy demand for steel and iron, and for raw materials, both for manufacturing and for construction work. Distribution of lighter merchandise also is especially active for this time of year in most lines.

Accompanying the expansion in production and distribution, is the general rise in commodity prices, an important factor in determining conditions. To what extent the increased buying power is traceable to a better return from industry and business undertakings, or to what extent it is due to the release of a large volume of funds in the Midwest West through the retirement of Victory notes and War Savings certificates, is difficult to determine. The recent inactive investment market, when compared with amount of funds released through maturing investments, indicates that a considerable portion of the proceeds of the matured Government obligations is being utilized to retire outstanding individual indebtedness, and is stimulating to some extent at least the increasing purchasing movement.

Opposition is developing among some members of the New York stock exchange against the many new issues which have been listed within recent months. This opposition is directed mainly against the new companies with capitalizations no greater than the owners can put the stocks up or down according to their wishes. These fluctuations, it is intimated, are doing more harm to the general market than most people realize.

Stocks in Swing Upward Following Early Heaviness

New York—Two "bear" attacks on the stock market, with the rail shares as targets, caused further heaviness during the early part of the week, but strong buying support made its appearance at the lower levels and prices eventually resumed their upward swing in response to the optimistic reports of credit conditions by Secretary Mellon and the Federal reserve board, publication of additional favorable earnings statements and reports of record breaking March railroad traffic returns, customs receipts, pig iron and automobile production.

Short selling of the rails was founded on the report that February income showed a turn on an annual basis of 5.73 per cent on tentative valuation as against 5.54 in January. This was explained by the fact that higher rate schedules were in effect last year and that this year the operating expenses were unusually heavy because of the severe storms in the northern section of the country. Weakness of Union Pacific, which was one of the first attacked, was founded on unconfirmed rumors of a possible cut in the dividend but this is hardly borne out by the net income of the first two months which is at the rate of more than \$14 a share on the common stock.

Higher prices for raw and refined sugar revived speculative interest in the sugar group which had been depressed following the announcement that government investigation of prices was under way. Automobile shares were strong in response to production statistics for the first quarter, which showed that twice as many cars are being made and sold this year as last year. The decision of railroad executives meeting here

to increase their expenditures for equipment since January 1, 1922, to \$1,540,000,000, one third of which already has been spent, was the signal for another rally in the equipment group. Steel shares were heavily bought in anticipation of some unusually favorable earnings statements for the first quarter, the independent issues making the best gains.

One of the most interesting developments of the week was the report that the buying policy of retailers was changing and that they were placing orders for fall delivery whereas only three or four weeks ago they were unduly conservative. Indications that there is little immediate danger of inflation such as the country experienced at the close of the war also are furnished by the annual statements of the large industrial companies, which show inventories at the end of 1922 to be from 93 1-2 to 66 2-3 per cent below those at the end of 1920.

LATEST MARKET REPORT

FINANCE

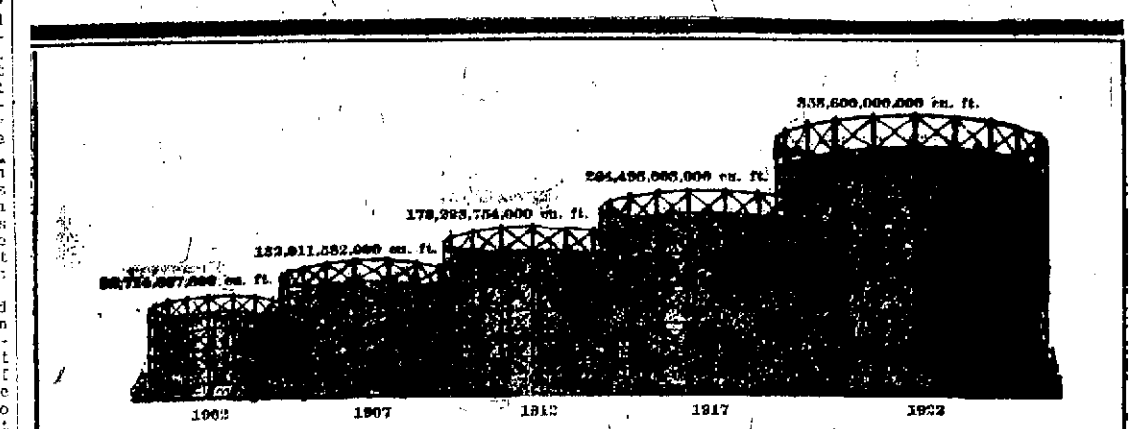

New York—Another sharp setback in price stock place in Saturday's brief session of the stock market. Reaction of the short interest by the recent uptrend in certain stocks and the lack of sufficient buying support at the higher levels had left the market in a weakened technical position which bear traders were quick to some and take advantage of. Barndall Oil shares were the principal targets, the bear drive in this group setting off a number of stop loss orders. Barndall A dropped more than six points before buying support was forthcoming and the group closed two to a new low record. Chemical shares again turned heavy. American Agricultural Chemical preferred slumped 3 points. Iron Products also was conspicuously weak. The closing was heavy. Sales approximated 450,000 shares.

CONTRARY to the general impression, the use of manufactured gas has not decreased because it is no longer being extensively used for lighting. Instead, 1200 different industrial and domestic uses have increased consumption 286% in the last twenty years—note the accompanying graph showing growth of the gas business.

Don't Take Chances With Your Savings

Recently a hermit, who had lived in a southern state as a public charge, died.

Preparations were made to bury him in the Potter's field. Authorities visited his shack to move the furniture—they found an old box containing \$27,000 in gold and currency.

The point is, money to this man was everything—but what chances he took with it—what nonsense to have kept such an amount hidden in a tumbled down shack where it did not earn interest; was accessible to even an amateur thief, and the ravages of fire.

A strong bank like ours is the only safe place for accumulated savings.

Don't keep money around—bring it in to us.

First National Bank

Established 1855. Janesville, Wis.

Little Talks on Banking

It is good business from every standpoint to open a banking account. No prudent person will carry a considerable sum of money on his person, neither should he keep any tucked away in some hiding place at home. The local bank is a safe place and it is always subject to check and money can be had as soon as a check is presented at the bank.

Everyone having a checking account should remember that checks should always be written with ink, always have the amount of the check written out plainly and that they should never be drawn to bearer as a check to bearer signed by the man who has money in the bank is exactly the same as cash. Should such a check be lost, it could be cashed by anybody. Always make the checks payable to the person to whom the money is to be paid or to their order, then in order to get the money, the person in whose favor the check is drawn must endorse it on the back. At the end of the month, the bank will return to you all the checks that have been presented for payment and you have the written receipt of the person receiving the money.

# The Inside Reason for Oakland Success-Known Mileage

What single thing—more than any other—is influencing so many careful buyers in favor of the Oakland this year? What definite superiority accounts for the increasing number of Oaklands you meet on the streets every day?

AFTER all, the success of a motor car depends upon the success of its engine! To the Oakland engine, therefore, must go the major credit for Oakland's phenomenal success this year.

If ever a manufacturer set about deliberately to build the finest light-six engine that could be built—Oakland did! Materials were chosen with scrupulous care! Special steel alloys were employed wherever they would increase efficiency, lessen weight, or insure longer life.

The costliest bronze-backed, patented bearings were chosen; cylinders were honed to the smoothness of glass; special design, two-piece piston rings were employed—and the workmanship was checked and re-checked to infinitesimal dimensions.

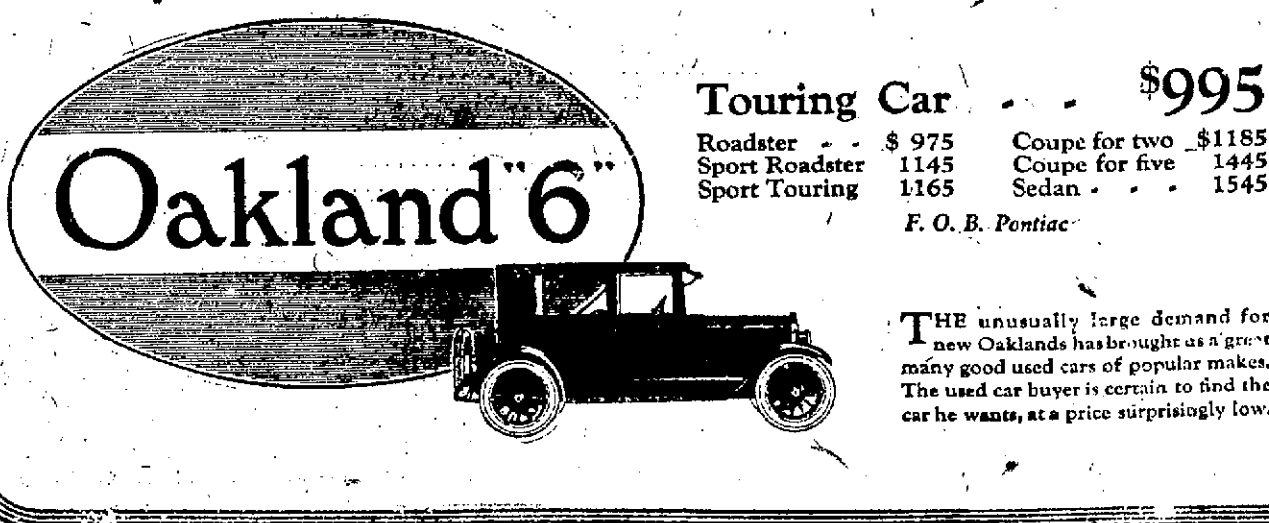

Because Oakland employs only the

finest metals known to motor building practice—and because of the accurate and precise standards that prevail in Oakland factories—the Oakland company is able to offer you a car that will give exceptionally long mileage,—known mileage, free from trouble or expense.

Oakland knows, for instance, that in addition to the remarkable mileages given above, an Oakland will average from 20 to 25 miles per gallon of gas and 15,000 to 25,000 miles per set of tires.

REMEMBER these things when you choose a car this spring. Compare an Oakland—in points that you can see or feel—with any other car and you will understand why so many careful buyers are convincing themselves that the Oakland Six offers more for the dollar than any other automobile built.

## GAZETTE GOOD TIMES CLUB

FOR ALL SCHOOL BOYS AND GIRLS

MRS. FLORENCE SLOWN HYDE, EDITOR.

If all teachers, pupils and patrons of the 42 Rock county rural schools that have photographs would take advantage of the Gazette record of the club, the club would be able to secure the records needed for participation in the music memory contest.

Other schools that are working to obtain records in this way are: Hanover, Orfordville and Wilder, town of Porter; Zuppler, town of Union; Avon, and Alma Center. The school in Spring Valley, taught by Mrs. M. J. Thorsen, is also working to obtain records.

The selections on the music memory contest list rank among the world's best musical compositions. Pupils of schools that have obtained part or all of these records are proving their ability to appreciate this type of music through their enthusiastic desire for more records. After having heard a few of the selections, the object of the Gazette Good Times Club is to bring more joy of the right kind into the lives of all boys and girls. Let us hope that the club will not only bring pleasure to boys and girls now, but lay the foundation for future enjoyment throughout life. The Gazette is offering four prizes for each township music memory contest and a first prize of \$5 for the county contest. Additional prizes are offered for the contests in the four state graded schools, so that rural pupils are not required to compete with the pupils of these schools.

**IS PLEASED WITH PRIZE**  
Mabel Albrecht, Hubbell school, who won the prize for the best composition on "How I Can Be As Loyal to My Country as Lincoln Was," sent the club editor a beautiful Easter greeting card on which she wrote the following message: "I received your scrapbook and most of the pupils have quite a few clippings in them. The first and second prizes were very pretty. The highest number of stars on our attendance certificate is six won by Roy Torn, who has not missed a day of school." Paul school, Florence Marquette, reporter: "We enjoyed the Washington entertainment material. We would like recitations and dialogues suitable for program any time. Playdays in Rural Schools, and I am sure you will be glad to send us reports about the club."

**WATCHING FOR BIRDS?**  
Letters received from a number of schools refer to bird booklets or calendars on which the birds seen by pupils are listed. The club editor would like to have reports from schools as to who has seen the largest number of birds, with the list of the birds' names. Schools are invited to send in reports about the club.

**GOOD TIMES CLUB MEMBERSHIP COUPON**  
Any school boy or girl may join the Gazette Good Times club by filling out this coupon and sending to Good Times Club Editor. There are no dues or membership fees and each member will receive a greeting card on his or her birthday.

**Inferences**  
Inferences or deductions made from the bidding of partner or opponents are as important as anything in Auction. Proper deduction helps not only in bidding but also in the play of the hand. There are two kinds of inferences: positive inferences and negative inferences. Positive inferences are drawn from the actual bidding either of partner or opponents. Negative inferences are drawn either from the failure of partner or opponents to bid at all or their failure to make certain bids. For example, suppose the dealer bids one club and the other player makes the positive inference that the dealer has two quick tricks in his hand, either in the club suit alone or one quick trick in the suit and one outside trick. Assume a bid of one club by dealer, pass by second hand and dealer's partner to hold the following:  
Hearts—J, 10, 4, 2  
Clubs—A, 7, 6  
Diamonds—Q, 10  
Spades—K, 4, 3, 2  
He knows that the club suit is set up because his partner either has five clubs to bid or a four-club outside bid. If the dealer has five clubs, the dealer's partner has two quick tricks in the club suit. If the dealer has four clubs, the dealer's partner has one quick trick in the club suit and one outside trick. In either case, the dealer's partner has at least three quick tricks in the three suits other than clubs; that his partner, the dealer, probably has no more than one outside bid; and that second hand, who has just bid two diamonds, has the weakest hand of the four and therefore has no chance for game. Under such conditions clever deduction

There are five of us that have attended school for five months without being tardy or absent, as follows: Frank and Edward Gross, Mable and Elizabeth Schachtel, J. E. and Florence Marquette. August Schachtel has attended school for six months without being tardy or absent. We have made our scrap books and enjoy them very much for which we thank you."

**WALWORTH COUNTY HONOR ROLL**  
Miss Bertha Becht, Walworth county nurse, reports the names of pupils in the parochial and state graded schools at Lyons, whom she seems worthy of a place on the Walworth County Good Health Honor Roll. The fortunate boys and girls in the parochial school are: Marian Vogt, Margaret Duffy, Lydia Ablet, Fred Vogt, Margaret Field, Mildred McCann, Marcela Ehrhardt, Alana Hieck, Ramona Ganz, Collette Schaefer, Lorraine Heck, Bernice Vogt.

The state graded school, No. 2, Bernard Slavin, Laura Spiegelhoff, Audrey Hieck, Stanley Uebels, Edith Baxter.

## Ordinance Causes Increased Arrests

Rigid enforcement of the new arterial highway stop ordinance caused a big increase in arrests during March, the total for the month being 56, according to the monthly report of the police department. Of the total, 21 were for this violation and eight were for intoxication.

Other arrests were made as follows: Non-support, 4; speeding, 2; assault and battery, 2; parking wrong, 2; possession of liquor, 2; begging, 2; talking money under false pretenses, 2; inmate of disorderly house, 4; vagrancy, 2; keeper of disorderly house, 1; for other cities, 2; reckless driving, 1.

**Motorcycle Patrolman George Foran** led in the number of arrests, with 31, while others were as follows: Ward, T. Stein, and Handy, 3 each; Dickinson, Champion, Saxby, Lemart, 2 each; Morrison, Ford, Harmon and O'Leary, 1.

Forty-eight were taken to court and eight were discharged.

**To Give House**—The movie, "All This and the Forty Thieves," with all parts taken by juveniles, will be given at the high school auditorium Monday afternoon and night, under auspices of the Washington Parent-Teacher association. Two reels of comics will also be given, making a total of four.

**News From Local Branches.**

## INTERSTATE AUTO THEFTS CHARGED

Dougherty Rings About Arrest of Four Suspects at St. Paul.

Four men were arrested this week by Deputy Marshall William Taton, charged with transporting stolen automobiles from Minnesota into Wisconsin, in violation of the federal laws, as the result of work of the United States district attorney's office of Janesville. The men were indicted by the grand jury several weeks ago.

The first three named are believed to be members of a gang who have made a business of taking automobiles into Wisconsin and changing marks by which they might be identified and then disposing of them. Their operations extended through the latter part of 1921 and early in 1922.

**CITY CONSUMES 1,200 GALLONS A MINUTE**  
Janesville consumed water at the rate of 1,285 gallons a minute during March, according to the monthly station record of the city water department, showing a total pumpage of 57,328,570 gallons or a decrease of 4,000,000 gallons from the pumpage mark of March, 1922. Coal consumption amounted to 126 tons. The February pumpage was 51,000,000 gallons.

## GILES CLARK TO SPEAK AT K. C. BANQUET

Ast. U. S. District Attorney Giles P. Clark, Milwaukee, will be the principal speaker at a banquet here Sunday night in St. Patrick's hall given by the K. C. clubhouse on South Jackson street at 1 p. m. with Janesville, Beloit and Monroe candidates taking the work. The second degree will be given by the Beloit team and the third by a team from Chicago headed by District Deputy Grady.

The banquet will be served at 7:15 p. m. to members and their ladies. Mrs. William Kennedy is chairman of the Ladies circle that are to serve the dinner. Four hundred are expected.

The speaker, Attorney Clark, prominent in Milwaukee law circles and has made a reputation as a convincing speaker. An invitation is extended to all out of town Knights to be present at the initiation.

**JANESVILLE FIRM INCORPORATES FOR ILLINOIS BUSINESS**  
The Bower City Millwork company, Janesville, incorporated in Illinois Friday, with a capital stock of \$75,000 of which \$5,740 will be used in the Illinois business. The principal place of business in Illinois will be 88 East Jackson boulevard, with Lawrence J. Dohy, formerly of Janesville, as Chicago representative.

**COUNCILMEN ELECT FILE OATHS, BONDS**  
City Clerk E. J. Bartlett is receiving bonds and oaths of the councilmen elect under the city manager plan this week for presentation to the old council at its next meeting, April 15.

Each of the seven victorious candidates is required to furnish a \$500 bond. While the law does not specify a bond for councilmen under the managerial plan, officials thought it advisable to have them furnished in the same amounts as for school commissioners and supervisors.

## SEES DRY VICTORY IN SENATE BATTLE

Amendment to Search and Seizure Law Will Be Beaten, Says Hicks.

Madison—The wets are going to lose their fight for amendment to the search and seizure section of the Wisconsin prohibition enforcement statute, through adverse action by the senate, despite the opposition of a proposal to restrict the activity of enforcement officers. U. N. Hicks, legislative counsel for the Wisconsin Anti-Saloon league, said in an authorized statement today.

He declared the drys would be able to prevent passage of the Sachtjen bill, amending the search and seizure section of the Wisconsin law, when the measure comes up to a vote in the assembly April 11. It is in the senate that the drys are looking for their strength.

Here, the Anti-Saloon league still says, it has 16 votes, including a number of progressive republicans.

**POLICE WILL LIST LICENSE-LESS DOGS**  
Blank forms have been received from the state by the police department here for filling in the names of dog owners who have not bought 1922 licenses. These names are to be turned over to the district attorney in each of the various counties for prosecution. So far this year, the police department has sold 483 dog licenses as compared to 616 last year. The police will make a check-up on delinquents and file the report within a few days.

## We'll Make It Easy To Build The Home of Your Dreams

## We Offer a Plan That Will Be a Real Help To Those Who Wish To Own Their Own Home

We have spent time and money on perfecting a financing plan that will meet the needs of the man of moderate means. If you own a lot and have a small amount of cash, our plan enables you to borrow the balance and pay it off like rent.

## Here's How Our Plan Works—

If you have a lot valued at \$500 and wish to erect a \$4000 home and can furnish \$1100 cash, we will loan you \$2900. You can repay this \$2900 in 142 monthly payments, the first being \$37.22 and each month thereafter.

## Your Payments Reduce

At the end of the first year your monthly payments will be reduced to \$35.80. At the end of the fifth year your monthly payments will be reduced to \$30.11. Your last monthly payment will be reduced to \$20.64. These particular amounts are used merely to illustrate the workings of this plan. Payments on different sized loans will be in proportion. You are privileged to make additional payments of \$100, \$200, \$300 or any amount in even hundreds on any monthly payment date. This of course, reduces the amount of your monthly payment. Call, phone or send us the coupon and we will show you how this plan answers your particular building problem.

You have probably asked yourself this question more than once.

The answer is simple enough to assure your family a "living wage" in case of your death.

But—perhaps you feel that you cannot afford to pay for this amount.

If so, you will be interested in the new Travelers policy which I am offering.

It costs only \$11.24 per thousand at age 35.

It has the same Disability Provision, that is contained in the higher priced policies.

# 12 Seeking Berths in City Ball Loop; Rules Prove Task

Twelve teams are seeking berths in the industrial amateur baseball league now in process of formation here. Requests for franchises in the circuit have come from the United Merchants, the Knights of Columbus, United Bankers, Parker Pans, American Metalists, Tanks Corps, Y. M. C. A., Shurtleff Ice Cream company, Gavarty, Bank River Woolen Mills, Daily Gazette and Chevrolet Motors company.

If all of these clubs line up as indicated, the problem facing the circuit will be to procure sufficient diamonds. The fair grounds, Black Cat diamond and the Robert F. Buege lot will probably be sought for use.

## Busy Man's Sport Page

By FRANK SINCLAIR

SINCE the Y. W. C. A. opened in Janesville, women have become more prominent in sports. In the season just closed, the local "Y" possessed the best girls' basketball team in Wisconsin playing girls' rules. The reputation of that sextette spread outside the bounds of the state. The list of accomplishments is a meritorious one.

THE "Y" has had two years of successful bowling, concluding this year's season with a tournament. The "Y" has gone in for rifle shooting and the outlook is for the development of several sharpshooters. The "Y" aided in establishing classes in horsemanship for women with the assistance of the local troop of cavalry.

THE "Y" has fostered summer swimming at Clear Lake. As soon as the water is warm and the sun is available, it will take charge of indoor aquatic classes. In addition, the physical director, Miss Helen West, will instruct girls at the high school in swimming for the balance of the present season.

TWO SEASONS of good tennis have been made possible through the Y. W. C. A. The new game has been started with such interest that it promises to remain in Janesville and grow among women. Last year's season was especially noteworthy with a city tournament and several matches with out of town teams.

THESE are the outstanding things. There was also baseball, hiking and gymnastics that fostered health and comradeship particularly among those girls who go to business. If there were no other sport to the "Y," but there are many, these things alone would make the organization worth the full backing of the public of Janesville. The organization is doing much to make the lives of the girls of Janesville brighter mentally, physically and spiritually.

John Lanyon, world's three-cushion billiard champion, defeats Archie Kieckhefer twice and leads, 450-441.

Jack Dempsey has been made an offer of \$100,000 to fight the champion of St. Paul at Shelby, Mont., and Johnny Williams, Brooklyn, wind up preliminary picture Saturday night at Chicago, Monday.

Harold Smith, Chicago bantam, and Eddie Cohan, New Orleans, meet at Chicago Monday. Joe Barnum, Chicago bantam, going to Hot Springs for treatment for injured arm. Jack Malone meets Billy Wells, English welterweight champion, at St. Paul, Apr. 12. Carlos Scaglia, promoter of this south American heavyweight champion, to fight Tom McKernan at Brooklyn Saturday. Nick Donovich holds Houston to two hits in seven innings and Chicago Cubs turn in 14-4 victory. Chicago and M. Dumovich pitching even during each at Fort Worth Saturday. Armour and Northwestern university open baseball season Saturday. Lope Rodriguez, Indiana, released by Cincinnati to Monticello, Tenn. The Cincinnati Reds on the fall end of their training season take on Indianapolis. A team for a three game series starting Saturday.

The Cleveland Indians will finish in first division according to President E. S. Barnard who returned from his tour of the league.

President A. Higley of the National league has put his O.K. on the Cub's new park here and planned to attend the opening game. Manager McGraw of the Yankees and his assistant, Hugh Jennings, formerly manager of the Detroit, celebrated their birthdays at Memphis Saturday. Enroute home with the club, the two have been associated off and on for many years. McGraw being 50 and Jennings 51.

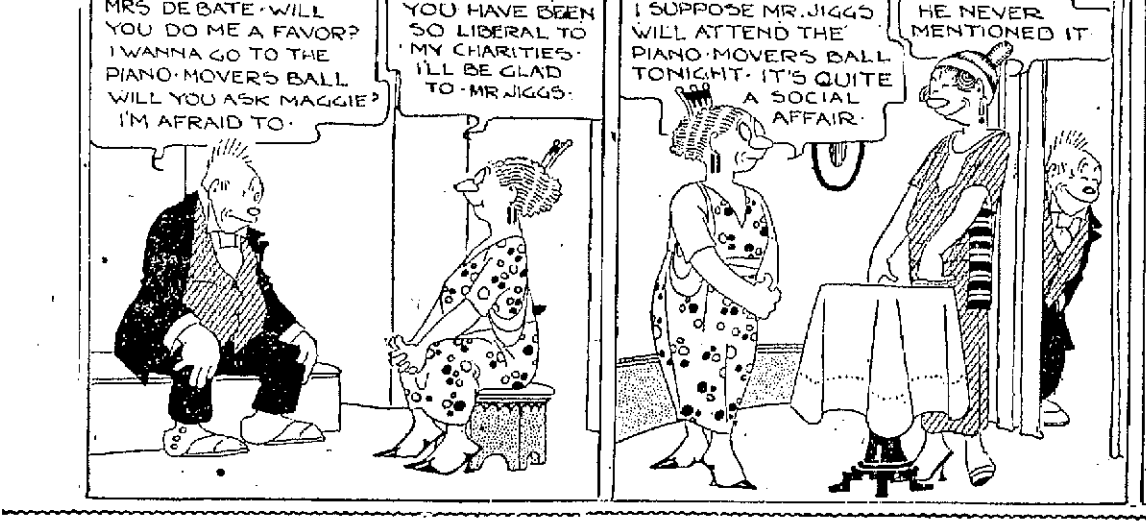

After already beating the Rockford Morning Star on the allers this season, the Gazette composing room goes to the Forest city for a return game Sunday afternoon. The match will be rolled on the allers of the Elks club.

BLACK CAT PRACTICE ON SUNDAY AFTERNOON

Serious interest in baseball will drop out here Sunday when a call for indoor practice will be answered by members of the Janesville Black Cats baseball team, member of the southern Wisconsin league. The pastimes will meet at the rink on South River street Sunday afternoon.

Don't forget to take your Kodak with you tomorrow. —Advertisement.

## BRINGING UP FATHER

## Dawson High Point Maker of Blue Caging Machine; Dickinson Ranks Second

"Don" Dawson, flashy little fellow who joined the squad after the close of the first semester, was high scorer for the Janesville high school basketball team for the season. He averaged 15 points a game. His best performance was against Whitewater Normal high school at the big gymnasium here when he caged 23 field goals.

Dawson also caged 16 free throws, making his total number of points for the season reach 98. This is an average of 7.54 a game. He used 15 tries from the free throw line in average of one a game. His best performance was against Whitewater Normal high school at the big gymnasium here when he caged 23 field goals.

Dickinson Comes Second

In addition, Dawson made history when he rang up the longest field goal ever made in the gymnasium of the Whitewater Normal school during the district tournament. At the event, he was elected as all tournament forward. Dawson had but 21 personal fouls charged against him. "Don" will return to school next season.

Next in line to "Don" comes Leo Dickinson, the lightningest chap on the quintet. Despite the fact that a poisoned leg kept him from playing in any of the games at either the Whitewater or the state tournaments, "Dick" ranks as second high point getter for the season.

In 12 games, Dickinson piled up 82 points. He ranked first in free throws, coming through with 36 out of 55 tries. He made 23 of the 115 field goals hung up by the Blues.

"Dick" for the hardest part of the season, that is the first few games was the man around which the future of the outfit rested. He counted greatly in radiating spirit into his fellow players.

Dickinson graduates in June and when he goes, Janesville will lose a valued player.

Renard, played center in all but one game of the season, and with Meek, guard, and Seeman, guard, who appeared in all 17 contests. The lanky, rangy chap, came in third.

During the season, the Klontzmen played 17 games. They won nine of them and lost eight. They piled up 271 points against their opponents. The Blues' record was 10-7.

## Big Ten Will Clean up Poor Diamond Conduct

## Colorless Day at A. B. C. Meet as Maples Stick

Milwaukee—Friday marked the passing of another dull day in the history of the American Bowling Congress tournament here, when for the first time since the tournament opened, almost a month ago, the five leaders in each of the four different events retained their positions.

T. Atkinson, of Milwaukee, featured the singles play when he totalled 656 pins, turning in consistent games of 221, 224 and 211.

A Chicago team, A. Trapp and O. Trovik, made the best showing in the two-man event with a total of 1,272. Trapp was the heavy scorer with 682, his partner counting 590.

Scoring in the team event was featured, the only creditable total being shot by the Kourse Oil company team of Omaha. The Kourse Oil team turned in 961, 985 and 959 for a total of 2,905. St. Joseph scored 643 for the highest single count of the team.

In the semi-final play in the five-man event Saturday night, teams from Chicago, Kansas City, Port Wayne, Ind., and St. Paul, Minn., will take the drives in an effort to work their way among the leaders.

Against Freak Deliveries.

No freak delivery such as the "split-ball" or "shine-ball" shall be allowed.

The methods outlined above and all other unsportsmanlike practices should be eliminated by the "upmen" or in terms, the standard of "chivalry" and by enforcing decency.

It is recommended that directors, coaches or captains read the foregoing code to candidates for baseball playing to conduct myself as a gentleman and a sportsman.

"I have read the code of sportsmanship for college baseball and I hereby pledge my co-operation in eliminating the unsportsmanlike actions listed and in general in my best playing to conduct myself as a gentleman and a sportsman."

Without the least bit of injury to the "top" of the game of detriment to the skill of the players as individuals or in teams, thus objectionable practices which lower the standard of sportsmanship can be eliminated.

Catchers on the baselines, under the guise of encouraging batters representing their sides, often strive to "rattle" the pitcher by various remarks. Catchers frequently seek to undermine the batter by remarks as frequently crash into the pitcher from the bench to alarm some player about to make a catch. Another unsportsmanlike practice is for a coach or some other member of the team to attempt to confuse the pitcher by calling upon one of them to make the catch.

Batters attempting to disconcert a pitcher and obtain a base on balls, sometimes stand with their backs to the plate, or stoop to pick up dirt.

Batters attempt to hinder and obstruct the catcher as he makes throws to bases. Baserunners, although they have been thrown out, frequently crash into a baseman in an effort to impede him in completing a double play. When there is no opportunity for a play at the base, infielders shall move far enough away from the base to avoid any possible interference with the baserunner.

Basemen sometimes shout "Get back" and similar warnings in the hope of deceiving baserunners. "Look out" is cried by coaches, runners or from the bench to alarm some player about to make a catch. Another unsportsmanlike practice is for a coach or some other member of the team to attempt to confuse the pitcher by calling upon one of them to make the catch.

## EVANSVILLE BASKET TEAM BETTERS RECORD OF 1922

Front row (left to right James, 25; Cain, 19; Captain Barnum, 20; Roberts, 18; Baker, 18. Back row: Coach Larkin, Libby, James, Manager Brigham.

Evansville—Although they did not win as high a place in the White-water sectional meet as they did last year, this season's scores are proof that the Evansville high school basketball team has ended a more successful season than they did in 1922.

With the same five men who made up the team last year, Coach Tarkh developed a machine which went through the regular schedule with only one defeat, and that by the state championship Wisconsin high quintet.

The local five entered the White-water tourney rather down-hearted because of the loss of James, regular right guard, and lost the first game to Madison Union. These figures show that Evansville averaged 37 points to their opponents 14 this season, against 24 to 12 last year.

The highest score of the season was registered when the Madison East was defeated, 87-4, while a 65-15 count was run up against the Harlem, Ill., quintet.

Roberts, local free thrower, was again high scorer with 175 points.

Only three less than he tallied last season, Capt. Barnum was a close second with 168 while Cain with 134 improved much over last year. James, who was in only 9 of the 15 games, scored 81 ringers and 4 free throws for a total of 68. Baker played a constant game at guard all season as did Libby, who saw action in 13 contests.

Every one of the five regulars as well as two substitutes will graduate this year and give next year's coach a nice job picking a new combination. Next season's squad will be built around Capt. Dick Funk, Green and Miller, all of whom played some this year.

# THE BUSINESS OF FARMING—LIVE STOCK—DAIRY—FARM BUREAU

## QUALITY TOBACCO IN PLACE OF LBS.

Southern Wisconsin Crops Suffer from Unfavorable Reputation.

Quality instead of pounds will put southern Wisconsin on the map as a producer of good binder tobacco. Rock county is producing too much stemming stock and not enough that will grade under the pool system of selling tobacco on its quality and merits. Growers are realizing that since tobacco is paid for on a graded basis that it is up to them to grow crops on a quality instead of a weight basis. Growers should appreciate the fact that it is more profitable to raise a smaller crop that will be placed in one of the higher grades than a larger crop of indifferent quality.

Good tobacco is in active demand by the market to be sold at a decided discount. Southern Wisconsin tobacco suffers from a poor reputation. Whether Rock and Dane counties deserve that adverse reputation is not the question. The very fact that tobacco can slide in under the name "Northern Wisconsin" adds five cents or more a pound to its value.

**Grow Loss Accrues**  
The tendency in northern counties is to grow fewer acres with more attention paid to soil, cultivation and to soil, cultivation and care. There is no logical reason to believe that Rock county cannot grow as good or better tobacco than can Vernon county. There were exceptional crops produced this year around Cokesville. Certainly there is no better soil than in Rock county. There may be a dozen different theories advanced why northern tobacco is better than southern but the practical fact about the matter is that less effort has been paid to quality production in Dane and Rock counties than in the northern belt.

There are two main reasons why so much stock grown in the southern belt goes as stemming stock. Some years ago there was a heavy demand for stemming stock. The price soared that year and the growers concentrated on raising crops that would weigh heavy with little or no attention paid to producing quality. Conditions turned but the farmers kept on using seed and methods that produced a heavy, low grade crop. The other reason can be traced to a year ago when five and seven cents purchased any and all crops. Good binder crops sold at the same price as the "rags" and "mings."

**Pool Grading Policy**  
One year ago Rock county farmers were hauling their tobacco to market and begging to get rid of it. There will be no attempt by the pool to regulate the quality of production could, for just the moment there was an organized effort to cut, it would react to such an extent growers generally would not want to sell when there would be a short crop and big demand and double their acreage.

Rather the grower should reduce acreage to a point whereby he can grow a quality crop, say the tobacco authorities. The limit has been reached on stemming stock and there is double and triple the stemming stock price for graded tobacco. The pool grading system has changed the buying methods. Considering that it has been in operation but one year and all the talk of the Wisconsin crop without borrowing a cent, the pool has done remarkably well. Whether the pool method continues depends on the morale of the growers and their attitude on acreage.

An overproduction of poor tobacco will spot the market, regardless of how strong the pool becomes. The only way to combat overproduction of stock that cannot be absorbed is by holding off the market that which cannot be sold at a reasonable price and then distributing the excess evenly among all growers. No one wants this state of affairs for it means loss not only to the pool grower but to those out of the pool in having an oversupply on a glutted market.

**Cooperative Effort**  
There will be a concerted effort to improve the 1923 crop. Experts will advise the growers on what seed and planting methods will return the best quality. Pool growers in the state organization will be given information by the extension specialists on means that will likely put quality into their crops. It is good business for the pool to grow tobacco that will meet the full needs of the buyer. Co-operative methods will be employed through the pool not only to improve but to eradicate disease and blights. Research work will in time provide cures and remedies for much of the infection.

It is to be hoped that the time is not far distant when Rock county grown tobacco will have a selling reputation equal to that of any district in Wisconsin.

## TWO MORE COUNTIES IN FOR T. B. TESTS

T. B. tests have been applied for by two more Wisconsin counties—Wood and Jackson. In Wood county 1,700 cattle owners applied for the test.

## MAKES GOOD ON FIRST TEST

MISS LADY HURLINGIN 5TH.

Another Holstein cow purchased at the Rock county consignment sales has made good on official test work. T. A. Tolson and Sons, Orlinda, purchased Miss Lady Hurlingin at one of the county sales and recently put the cow on test. In seven days the cow set a mark of 630.9 pounds milk and 55.27 of fat. It was the first official test for these breeders. Note the unusual under capacity of this cow.

## GOOD SALES MADE OF SHORTHORN SIRE

Good sales were reported among Shorthorn breeders of Rock county on bull calves. Several breeders from this county attended the sale held at the Gresham farm, Wharton, Ill., when this famous herd was dispersed. The females sold for an average of \$350 with the top cow at \$1050 and the bulls averaged \$475. The last son of Kinella Duke, the 2015 pound bull of the Traylor herd, owned by Alf Adde has been sold to a buyer from Viola, Wis. A calf owned by Clayton Spaulding was sold during the week to Clarence Collingwood, Dodgeville, Wis.

A two year old sire owned by Harry Arnold was sold to J. Pickett, Mineral Point, Wis.

Four sales are reported by R. W. Lamb and son. All the calves were sired by Valgrove Enterprise, International winner. Patricia's Duke was sold to the Bros. Fern, Kimball, Minn. George Smith, Burnett, purchased Kathy's Squire and Edward Jewell, Dodgeville, purchased Jewell's Enterprise. Fairboy another animal from the R. W. Lamb and son herd has been sold to Edward Edson, Harmon, Ill.

## RURAL CLUB MEETING TO BE HELD MAY 10

The meeting of the women's clubs at Rock county will be held in Edgerton, May 10. This meeting, scheduled to have been held last month, was called off because of adverse traveling conditions. All the rural home clubs formed in the county under the direction of Miss Sadie McNulty, Madison, will be represented at the meeting. It will be a round-up rally after a successful year's club work.

During the morning there will be a short business session, the program following the noon luncheon. Miss Cora Leiby, Chicago, and Miss Fry-singer, Washington, D. C., will be among the speakers.

## ADOPT NEW RULES ON SALE PAPER METHODS

An effort will be made by the Rock county Holstein association to have all paper work such as T. B. test sheets, transfers and registration papers complete before the quality consignment sale May 1. Importance of having every paper and clerical detail complete before the sale cannot be over-emphasized. It means satisfaction to buyers.

The ruling of the state authorities

is that an animal to be sold for shipment out of the state must be tested within 60 days of the sale in order to have a shipping order signed.

## GRIND HOME LIME AND SAVE MONEY: \$4,000 SAVED HERE

Home grinding of limestone saved Green Lake county farmers at least \$2,000 a year, and profits from growing a greater alfalfa acreage increased \$16,000 in a year, estimates

James Lacey, county agent.

In Rock county the crushers have saved farmers at least \$4,000 in freight and price.

Lieut. Lester J. Maitland beside his record smashing aerial speeder. Air speed records? Yes, they set them. Not to keep them but to break them. Lieut. Lester J. Maitland, army flyer, had no more than set a new air speed record of 240 miles an hour beating Sadi Lecolue's mark of 233 when one of his brother flyers "stepped on the gas" and beat Maitland's record by thirty miles an hour.

"What if Mr. Mitchell did die with the lady a time or two with friends? There is no harm in that. He was not unfaithful to me." With these straightforward remarks Mr. John Kearsley Mitchell expresses her belief in her husband, revealed as the "mystery man" friend of Dorothy King, slain Broadway battery. Mitchell voluntarily went to the office of the New York district attorney and gave the office all the facts asked of him regarding his acquaintance with Miss King and his knowledge of

They gave her an overdose, however, causing her death. her other friends. Mrs. Mitchell is the daughter of E. T. Stotesbury, Philadelphia millionaire and partner of J. P. Morgan. Officials believe that Miss King was killed because she refused to be a party to a blackmail plot against Mitchell.

Miss Elizabeth N. Cauley.

"I have only one son, the one born to my wife, Winifred Westover Hart. This charge of Miss Mac Cauley's is false." So declares "Bill" Hart, famous "two-gun" man of the movies. His denial follows the publication of a statement by Miss Elizabeth Mac Cauley, instructress in a Massachusetts girls school, that Hart is the father of her child born in a New York hospital Sept. 3, 1917. She also states that Hart agreed in 1915 to pay \$50 a month for its support. She now asks \$100.

Bill Cunningham in action.

Over the winter months columns of stuff were written about Jimmy O'Connell, the outfielding and first basing star of the Pacific Coast league for whom the Giants had paid \$75,000 and who had been given a year's training on the coast under McGraw's orders after his purchase. When the spring training season began McGraw figured on playing him in center field. Now, however, it is generally believed that O'Connell will war the bench when southpaw face the Giants and the oncoming William Cunningham will replace him. O'Connell's hitting against lefties isn't very good. Cunningham can hit them and he can field with any of the youngsters.

Raiders checking up 2,600 gallons of wine in secret cellar-cave, above, and federal agents destroying 100 barrels of beer taken in roadhouse raid. Federal and state prohibition officials, carrying out their plan to "clean up" Mississippi river towns, conducted two raids in Burlington, Ia., recently, which netted them 700 cases of "old-fashioned" beer and 2,600 gallons of wine. The wine was found in a secret cave opening from a cellar under a building in the business district. The beer was confiscated when a roadhouse near the city was raided. The raids are being conducted in many river cities and towns.

## Buick Authorized Service

A Valuable "Part" of Every Buick

Equally important with the universally admired performance ability of Buick cars is Buick Authorized Service

The insurance that the nation-wide Buick Authorized Service system provides for every Buick owner increases the confidence that comes through testing Buick dependability in every kind of motoring.

Buick Authorized Service of the same uniformly high standard, no matter where it is found, has resulted in conviction on the part of automobile owners that Buick Authorized Service is in itself a valued part of the Buicks they purchase.

## HINTS FOR THE MOTORIST

ALBERT L. CLOUGH

### Hazards Of Insecure Blocking

NUMEROUS SERIOUS ACCIDENTS have been caused by jacked-up cars slipping from their supports and crashing persons who were doing work beneath them, and the motorist who works under his car should do everything possible to guard against this danger. The base of the ordinary jack is so small that it takes but little force to tip it over and let the car move and fall to the floor. For this reason, when one axle of a car is off the floor the tires of the other axle should be heavily and closely blocked, both before and behind, to prevent the car from rolling. Heavy wooden blocks cut a foot or so in length from fairly heavy timbers used in connection with pieces of board of about the same length, to adjust the height accurately, afford a more secure support than do jacks, and few motorists have more than one of the latter. Always test the reliability of blocking by "joggling" the car in all directions before going under it, and never get into a tight place under it unless absolutely necessary. Boxes are very handy for blocking, but they are liable to crush, especially when used under the rear end, and only very substantially made ones should ever be used. Blocking up a heavy car on a perfectly level floor is risky enough, but doing so on an irregular floor or on a road, especially if it is soft, requires much greater precautions.

### A HORN QUESTION

J. G. S. asks: Can I operate a Ford magneto horn from the high-tension magnets of my car, which is not equipped with a battery?

Answer: No, you cannot use such a magneto for any other purpose than ignition. If you had a battery on your car, you could not operate this horn from it, the magnet horn being operable only from the alternating current produced by the Ford magneto.

### ENGINE WARMS UP TOO SLOWLY

C. M. writes: It seems to me that it takes too long for the engine of my car to heat up, these cold mornings. It misses for a long time, after it is started, but as soon as it is warmed up, it runs perfectly. I keep the radiator front partly covered. A mechanical friend of mine says there is something wrong, as it should heat up quicker. What can you suggest?

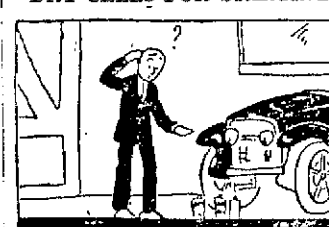

Answer: Of course, you are taking all hot air for the carburetor, through the flexible tube connected with the stove around the exhaust manifold. We see no reason to believe there is anything wrong with your pump, as this slow warming up is characteristic of engines.

Questions of general interest to the motorist will be answered by Mr. Clough in the column, space permitting. If an immediate answer is desired, enclose self-addressed, stamped envelope.

which have no hot-spotting and which have exposed intakes. Regular firing would be attained sooner if the jets in your carburetor were larger, but this would spoil your fuel economy. As soon as you have started the engine, cover the radiator front and hood heavily with blankets and idle the engine with the spark as late as practicable in order to increase the heating rate.

### DRY CELLS FOR STARTING

C. B. A. asks: How can I wire up dry-cells to spark the engine of my car at starting? When the storage battery is not fully charged, the spark produced from it, curling cranking, is rather weak and makes starting difficult.

Answer: Wire up five dry cells in series, in a box located somewhere on the car; connect one of their end terminals to some point on the frame for a ground; connect the other end terminal to one side of a push-button, conveniently located; and connect the other side of the push-button to the terminal of the regular ignition switch, to which is attached the wire which goes to the resistance unit on the coil. To start the engine, do not close the regular ignition switch, at first, but hold the push-button closed, while the engine is being cranked. When it starts, put the ignition switch on and release the button. The object of using a button and not a special switch is to avoid running down the dry-cells. The engine should not be run long with the ignition switch off, for fear of injuring the generator, which is then open-circuited.

**ATTENTION!**  
REASONS WHY YOU SHOULD BUY YOUR FORD CAR NOW.  
There is every indication of a great shortage of Ford cars this season. The reason for this is plain and indisputable. The unprecedented demand during the winter months has taken the entire output of the Ford Plants working at full capacity.  
Months which have heretofore been lowest in purchasing have equalled or exceeded the months of heaviest buying.

### WHAT DOES THIS MEAN?

It means just this—Ford Dealers in many parts of the country, are finding it necessary to specify future delivery dates on Ford Products because there are no reserve stocks from which to draw.

It indicates that the near-future demand will be far in excess of the number of Ford Cars that can possibly be built. And, this means a greater shortage of Ford Cars than ever existed before.

These are facts which you are entitled to know. If you contemplate the purchase of a Ford Car, Ford Truck or Fordson Tractor, place your order at once. Take advantage of our first opportunity to make delivery. Come in today. Don't delay. Protect yourself against disappointment later on. Have your car to enjoy during the time when motoring is most delightful.

A small deposit with your order is all that is necessary. You may then pay for your car on easy terms.
